EXCLUSIVE: Start an Online Business that Actually WORKS

It's True - There are 3 traffic secrets beginners need to make the right choices when creating an online business.

There's a big difference between someone who's actually successful online & someone just trying to figure out this whole internet marketplace for the first time.

People like my mentor, Anthony Morrison, who have made 10's of millions know EXACTLY what it takes to get you there.

If you've been stuck at home looking for a quick 'flash in the pan' method & you're tired of working for little to nothing...

If you'd rather spend time doing something that will generate returns for both your well-being and your wallet,

Then maybe it's time to think long term & found a proven path to success by partnering with somebody who's already been successful.

Here's my point:

If you're looking for a solid blueprint on how to create a profitable digital growth machine from scratch — that'll soar you through 2020 & beyond,

Then you have to check out [Anthony's Free Training](#) that will show you a proven and tried method that allows anyone to start a career in digital marketing.

Click or swipe to sign up for free and I'll include a copy of his new book with information you won't find anywhere else.

And you wouldn't be the only one to say YES to this.

Over 10K+ Digital Marketers have partnered with Anthony for 3 main reasons.

1. Copy + Paste Strategy

I've seen far too many "digital marketers" procrastinating on their dreams by trying to design websites, graphic design, and do other random tasks that have nothing to do with running a successful enterprise.

Instead of going at it alone, why not Copy + Paste our's to help you get started?

These funnels are high-converting and constantly being improved.

Now, if your next question is, "Great, but how do I actually drive traffic to these funnels?" well then you're going to love this next reason.

2. Quality Leads from Winning Traffic Sources.

Struggling with all of the talk of Paid Ads, Solo Ads, Google Ads, etc?

What if I told you there was a way to steal the exact strategy, the exact source of traffic, and the exact ads being used by Anthony and his team?

Well, that's "exactly" what you get. ;)

And no, **this isn't some get rich quick scheme** that's hear today and gone tomorrow...

Which brings me to the third reason:

3. Longevity.

Look, Anthony has been doing this for over 10 years & has worked with 1,000's of people (check out their video testimonials on Youtube - they're incredible) and this model is proven to work.

Cut out all the guesswork & build something that stacks up long-term.

If you're interested in learning more [click here](#) to get started.

PS: Us marketers like to say #NeverGiveUp.

Why?

Most people lose motivation at the first sign of adversity.

We can give you all the proven tactics any digital marketer needs to get started, but we can't GIVE you motivation.

But if that's something already inside of you...

Then [check out the Free Training](#) that will show you exactly how to partner with Anthony and create an asset that YOU own.

Swipe or click to start and remember, at the end of the training you'll receive a free book just for checking it out.

See you on the other side,

Copy + Paste These Funnels to Use as Your Own (Even if You Don't Have Anything to Sell)

[Beginners Only] Advice For People Trying To 'Crush It' Online From Someone Who Just Won The \$50M Funnel Hacking Award Doing Just That.

Gurus love to brag about hustling - but I don't value working my life away.

Instead of grinding to build your own digital empire - just copy and paste one that's already working.

Literally.

Hi, I'm Omer, and my life's purpose is to help entrepreneurs start working smarter.

I recently teamed up with Anthony Morrison to bring you a program to help anyone who wants to start building an online business by providing a 'business out the box' anyone can scale to the moon.

When Anthony was still going to school to be a doctor the economy came crashing down like a skyscraper.

He watched his Dad make 1 mistake and lose everything he had worked for his entire life - it wasn't fair.

Like a lot of people reading this, he was desperate when he typed in "how to start an online business" into the search engine.

That was over a decade ago.

Fast-forward to 2020, and he received the \$50 M award at the last Funnel Hacking event.

This program I'm presenting to you today (PWA) is essentially the program Anthony wished existed when he was getting started.

You get to take all the successful parts of his digital empire with none of the mistakes he's made along the way.

The best part?

It costs wayyy less than those dorky \$997 courses by people who have been in this game for 20 minutes, and will provide faster results.

Oh, and you can start for [**free by grabbing a copy of his brand new book**](#) and checking out his free training.

The Beginner-Friendly Online Business

Here's a Simple Online Business Model that's Perfect if:

1. You're a Beginner Looking for Something Less Complicated than What's All Over Your Newsfeed
2. You've Picked Up Some Digital Marketing Skills but Still Don't Have a Proven, High-Converting Product to Use Them.

If yes to either of those, you're gonna love this...

STEP 1:

Find a product that's already selling like crazy on Amazon(.com)

To do this, find the little button at the top that says "Best Sellers"

Choose a category you already have an interest in or something you've previously purchased.

You want to look for products you can give an honest recommendation and review.

Here's an example from a retired Kindergarten teacher who loved finding good quality toys for her students.

First, she chose a category.

(Ex. Toys & Games)

Then, she chose a subcategory.

(Ex. Preschool Toys)

By doing this, you'll find items that are popular, but maybe something people don't know about.

Like I said, this example was from a kindergarten teacher but I've seen it done with just about anything:

- Leadership Books
- Funny T-Shirts
- Baby Yoda Dolls
- Car Parts
- Chemical Free Cleaning Supplies

You can certainly choose products you don't know anything about, but it requires a bit more research and commitment.

STEP 2:

Once you've found a few products it's time to partner with Amazon.

If you scroll to the bottom of the homepage you'll see a button that says "Become an Affiliate."

This allows you to promote any of the products on Amazon's website and receive a commission each time a sale is made.

You don't have to purchase anything wholesale.

You don't handle any shipping

You're not responsible for customer service, returns, complaints, or problems with the order.

As a Partner, your ONLY job is to promote the product and collect a cut from every sale.

This is way better than FBA or other methods out there because you don't purchase anything upfront and you're not tied down to any one product.

STEP 3:

Now that you have a handful of products you'd like to promote and you've partnered with Amazon...

It's time to build an Email List of people that would like to hear about the products you're recommending.

NOTE: Most people think at this point they should start a blog, but this is backwards.

Blogs are a little more complicated and expensive to get up and running than an email list.

You can certainly build one down the road but if you're a beginner, an Email List is the best place to start.

In fact, most bloggers say their biggest regret is not starting with an Email List early on.

So how do you grow an Email List?

Well, the easiest way is to find people with similar interests if they'd liked join your newsletter to hear about your recommendations.

- Friends and family
- Facebook Groups
- Coworkers

There are lots of ways to do this for free but you can also run some easy ads like the one you're reading now.

If you've got a few dollars you can even purchase a Solo Ad where people with big email lists will tell people about your newsletter and get them to join.

I do this for people every day and have it down to a science.

STEP 4:

Ok, so now you've got some people on your Email List, it's time to send out your newsletter.

If you've done the work of finding great products that are already selling well, and something you can honestly recommend...

All that's left is letting your list know about them.

My favourite way to do this is through lists but here's a few ideas to get you started:

- "Top 5 Holiday Toys for Star Wars Lovers"
- "Read these 3 Books to Increase Your Productivity"
- "10 Vegan Recipes to Use with Your Insta-Pot"
- "My Favorite Kindle Romance Books Selling for .99"

^ See, pretty fun right?

No scam, sleaze, or trickery...

Just good ole fashioned recommendations.

Amazon loves when people do this and are happy to give you a cut anytime someone makes a purchase.

And they're not the only ones...

If you're skeptical

Open a new tab and check out the following sites and scroll to the bottom:

Ebay(.com)
Bankrate(.com)
BestBuy(.com)
Clickbank(.com)
Walmart(.com)

Just about every site that sells something online allows you to become a "Partner" or "Affiliate" to promote their products.

That's how valuable your recommendations are to them.

SO HERE'S THE DEAL

If you're still reading that tells me you're somewhat interested in trying this out for yourself.

If so, you're in luck...

I've created a Free PDF and video training that walks you through this process every step of the way:

[Check it out here](#)

It includes which buttons you need to click, ideas to get your started, and lots of case studies of people who are doing this to massive success.

Why is it all for free?

Because my hope is, if you really like it and want to learn more, you'll grab my Complete Training for 80% off.

^ I want to be totally upfront with you about that before you get your Free PDF and Case Study.

The Training includes 30+ modules of everything you need to know, in extreme detail, step-by-step.

I'll even show you how you can partner with other companies (not just Amazon), sell more expensive products, and collect a higher commission.

>>> And the best part, there's even an opportunity to Partner with my own company so that when you win, I win...

So you know I'm invested in your success.

Now that we have that out of the way, here's that link again to grab your Free PDF and check out my brand new Partnership Program:

Why You Should NOT Open an Amazon Store

People Say They're 'Crushing It' with an Amazon Store in 2020 but I DON'T Recommend It.

Hear me out.

Sourcing products...

Wholesaling from China...

Trying to rank on the first page...

Competing against companies 8X your size with products twice as good!

This path isn't beginner friendly - by far.

So when I learned that instead of competing I could PARTNER with Amazon for free - that totally blew my mind.

Yes, you read that right.

Turns out, Amazon, and so many companies like them, have a much more simple model where they're willing to partner with people who love and recommend their products.

Now, if this sounds like a “Brand New Business Idea” I promise you, that's not the case.

It's actually how the majority of stuff is sold on the internet these days.

-Amazon

-Ebay

-American Express

These enormous companies all use Partners like you and me to get their message out there.

Like I said, a lot easier than sourcing products from China and trying to rank them on Amazon.

Here's how it works:

Step 1: Find something you love or are passionate about.

(Dog Training Courses, Digital Marketing Software, Funny T-Shirts, Leadership Books, etc.)

Step 2: Find an audience that would love to buy them.

(Some use Paid Ads but I prefer more efficient methods)

Step 3: Set up an AUTOMATED system that promotes these offers on autopilot.

(And collect commissions on every sale or signup)

...and that's about it.

Now, even though I've been using this strategy for the past fifteen years (see video below) that doesn't mean it's stayed exactly the same.

You gotta keep up with the times.

So my mentor and I put together a Free PDF that walks through everything I know about getting started the right way.

☐ And included a video training to help fill in the blanks.

Check it out here and let me know if you have any questions:

Copy & Paste a Digital Empire

Here's the Truth: Amazon Doesn't Care About You - Partner With People Who Grow When You Grow If You Want To Live On Your Terms

Skip FBA, drop shipping, all the trends...

If you're looking for a solid blueprint on how to run a profitable digital growth machine...

Then here are 3 key reasons why 10k+ digital entrepreneurs have skipped launching an Amazon Store & partnered with Anthony Morrison.

#1: A Solid Foundation

What's a Solid Foundation in your business look like?

I'll tell you.

It's a battle-tested, proven offer that actually helps people.

Maybe you've been spending a lot of time on the marketing side...

Getting your funnels in place

Your email auto-responders dialed in

All your tracking setup, so you can easily track those sales. :)

But if you don't have a good offer you're doomed from the start!

But building one yourself requires years of experience, not to mention the investment.

So copy Anthony's instead.

It's already proven to work and even worth a \$50M Funnel Hacking award this year.

Not only is he going to show you how, but you can literally copy+paste the exact funnels he uses to run in his business. Why reinvent the wheel?

So now that you have a solid foundation, you're almost ready to start.

We just need to work on getting...

#2: Leads.

As with any business, you need traffic.

Social Ads, Solo Ads, Youtube Ads, Google Ads... the options are endless.

But once again, learning how to do traffic the RIGHT way is going to cost years of experience and investment...

Unless you Partner With Anthony.

Not only does he give you:

- Offers that Convert
- Funnels that Work

...but he also gives you his High Quality Traffic Sources.

And when it comes to being able to truly enjoying the fruits of your labour, you want to automate the process - after that it's up to you how to enjoy it.

#3: Residual

This is where automation is key.

Setup a backend that works while you sleep.

Something with a proven conversion rate.

We know it's proven because it took him 10 years to optimize.

And it's yours to use, simply COPY + PASTE.

Sound too good to be true?

Well, when you partner with Anthony Morrison, he only succeeds when you succeed.

Literally forcing him to be invested in your success from the start.

Your success is his success.

That's why, not only do you learn the entire underlying framework to profit they should be teaching in Business 101,

But on top of that, you gain Members Only access to the "Profit Cycle", including:

- His perfected sales funnel - completely done for you. Just copy, paste.
- “Plug n’ Play” autoresponders & link trackers giving you multiple streams working for you day in & day out.
- + Plus, get traffic sources, proven to work, worth \$619, for Free!

If you're still reading, make sure you check out his training.

It walks through everything you need to know to get started the right way.

The Introvert's Guide to Making Online Sales

I'm kind of an introvert.

I'll admit it.

Put me by the beach with my wife and my dogs and I'll stay there for days.

But that hasn't stopped me from selling thousands of high-quality products...

And make a living from commissions,

Working part-time hours,

Usually by the beach.

By now you're probably thinking:

"Selling? Yea, that's not for me."

I felt the same way.

But the type of selling I do doesn't require cold calling, door knocking, or meetings.

It's completely automated.

I'm able to run my business *almost* on autopilot without talking to anyone directly.

And even better, the customers I sell to actually REQUESTED to hear what I've got.

If this sounds like a "Brand New Business Idea" I promise you, that's not the case.

It's actually how the majority of stuff is sold on the interwebs these days.

-Airbnb

-UBER

-Amazon

These enormous companies don't require traditional salespeople to get their message out there.

And the number one way they close the deal?

Email.

Yup, the same marketing tactic that's worked since the dawn of the internet,
Is still the number one method I use as the corner-stone of my business.

Here's how it works:

Step 1: Find something you love or are passionate about.

(Dog Training Courses, Digital Marketing Software, Funny T-Shirts, Leadership Books, etc.)

Step 2: Find an audience that would love to buy them.

(Some use Paid Ads but I prefer more efficient methods)

Step 3: Set up an AUTOMATED system that promotes these offers on autopilot.

(And collect commissions on every sale or signup)

...and that's about it.

So if you're interested in learning how this is done step-by-step

And see my list of the BEST products to promote today WITHOUT paid ads, a huge brand, or a big budget...

It's time to check out my training loaded with case studies of how my students make consistent, reliable sales every day from email.

[Beginners Only] What I Would Do if I Had to Start All Over

"What would you do if you lost everything and had to start from scratch."

I get asked this question a lot so I thought I'd do my best to answer it.

And when I say nothing, let's go all in and say - NOTHING.

No way to do real estate deals

No capital to run countless ads on social platforms,

No connections or contacts to lean on...

But come in close because I'm about to tell you EXACTLY what I would do.

It may not sound flashy, but it's the core strategy behind virtually every single online business. Period.

And what I'm about to tell you is the very thing I'll do in the events of a market crash,

Housing bubble

Student loan crisis

Or whatever the next thing that sends the economy in a tailspin might be.

Ready for it?

>>> I would grow my Email List and promote other people's products.

No questions asked.

I would grow my email list, send them relevant offers that I know they're gonna love, and get a cut from every sale.

That way:

-I don't have to create a single product.

-I don't have to hunt down clients to launch a half-baked agency.

-I don't have to create an FBA store.

-And I don't have to dropship cheap trinkets from China.

Intrigued?

Now, I have to admit - I didn't invent this model.

See, I'm not a guru or online expert...

I was a complete beginner when I got started and learned from

I actually learned

If that sounds like the type of business you'd wanna run, check out my **Free Training** that walks you through the process, Step-By-Step:

[LINK](#)

By the way, this isn't a flashy new tactic that I just thought of yesterday.

This process is used to fuel the world's largest online companies.

Almost HALF of Amazon's revenue comes from ordinary people like you and me recommending their products...

And getting paid to do it.

[Don't Believe Me? Google this question and see what comes up: "How much of Amazon's revenue comes from affiliate marketing?"]

And Amazon isn't the only one...

Pretty much every company that sells something online lives and dies by having people recommend products their products.

Now before this sounds too good to be true, I should warn you that there's about 987 ways to do this wrong.

Picking the right products and joining with the right partners is the difference between a successful biz and a total flop.

That's why I've partnered with one of the best internet marketing teachers on the planet to bring you a **Free Step-By-Step Training** on exactly how this works.

Anthony and I will explain everything in detail and I'll even give you my *personal* email to answer any questions you might have.

It's all right here:

How to Copy & Paste All of My Funnels and Use them as Your Own (Even if You Don't Have Anything to Sell)

This is how Digital Marketers like myself and my students are crushing it in 2020.

-We're not drop-shipping trinkets from China...

....and pray they somehow go viral....

-We're not getting into FBA...

...and having all of their margins eaten up by Amazon.

-We're not spending months trying to "Rank and Rent" SEO sites...

...and expect local businesses to pay them a ton of change for little result.

-And we're DEFINITELY not buying more "training courses"

...seriously.

You know,

The ones that teach the latest strategy or "hack," then wish them well and send them off.

Nope.

None of it.

The way we're success in their online business in 2020....

Is through Partnering...

Specifically, we're Partnering with my mentor, Anthony Morrison.

How?

By Literally [and Legally] Copy and Pasting his funnels...

The exact funnels he used to earn multiple Comma Club Awards...

And use them as our own.

Without changing a thing.

That way, the only way he can win,

Is when his students like you and I WIN.

Maybe you've seen Gurus running their courses [and their mouths] all over our feeds.

Well I think it's time to put an end to the way "gurus" are considered successful.

Gurus shouldn't become 'icons' from selling their trainings or courses,

But from the Success of their Students.

That's why in 2020, I joined Anthony.

He's opened the doors to his ENTIRE company and giving Digital Marketers from experts to complete beginners,

The chance to Partner with him.

I've never been more excited about a digital course or program.

Check the link to learn more about Anthony's new Partner Program and **grab a free copy his brand new book just for stopping by.**

'Viral' Strategies Anyone Can Use to Launch an Online Business

You DON'T Need to Be a Celebrity to Grow an Online Business.

Trust me, I'm no Dan Bilzerian or Kim Kardashian...

I don't have a six pack, acting contract, or record deal...

But what I DO have is an authentic, engaged following that's allowed me to earn a Full-Time living from promoting other people's products.

And while most people know how important it is to build a following...

They go about it completely backwards:

- Posting Every Single Day
- 90 Day Content Strategies
- Obsessing Over Hashtags
- Spending TONS on Paid Ads

Look, that stuff is great but without a FOLLOWING all your awesome content is just going to get lost in a sea of influencers competing to be at the top.

So how do you grow a following with people likely to become customers or clients?

The truth is... you gotta go 'Viral.'

And no, I'm not talking about breaking the internet...

I'm talking about simple, repeatable strategies my students and I have been using to get our message out there and flood our profiles every week with high-quality customers.

If you want to see some of these strategies and try them yourself check out my Free Training below...

I'll walk through the 'Viral' tactics that WORK even if you don't have a product of your own or anything to sell.

Check out the details and let me know what you think.

PWA is YOUR Opportunity

THE PWA METHOD is better than Amazon FBA

THE PWA METHOD is better than consulting

THE PWA METHOD is better than becoming an author

THE PWA METHOD is better than trying to run ads on Social Media

THE PWA METHOD is better than starting a social media marketing agency...

THE PWA METHOD is better than dropshipping...

And the craziest part is...

You see the PWA Method in action every. single. day. without even realizing it.

Wanna know what THE PWA METHOD is?

THE PWA METHOD is the NEW WAY To Profit from an Online Business... Without Creating Your Own Products or Dropshipping them from China.

And no...

You never have to start an agency, land clients, or deal with angry customers...

Want to learn how?

Well you're in luck because I just released a brand new training that goes over all of the details...

And I'm even giving away a **FREE copy of my brand new book** that shows you how to get started.

In Summary...

Are you happy?

It may seem like a strange question but...

When I see these entrepreneurs posting pics of their lambos, new homes, or hot vacation spots I gotta wonder:

Are they happy?

Like ACTUALLY happy?

Hear me out...

Most entrepreneurs start their business to get more happiness...

Or to put it another way - more freedom in their life.

But what really happens?

They fired their boss but become a slave to their computer...

They quit their 9-5 but still don't have enough time to go to their daughter's soccer game...

They're no longer reliant on a paycheck but now stress about every dollar to pay bills.

That's why, when I set out to build an online business my goal wasn't "stuff."

My goal was freedom, happiness, and the ability to make every second of my day 100% mine.

The freedom to spend time with my family, take those vacations, or simply step away from my computer.

That doesn't mean I don't splurge on occasion...

It just means my focus is building a business that makes me truly happy.

So if you're wondering what a business like that looks like and how you can build one for yourself...

Check it out here. [\[LINK\]](#)
